

Torrans MANUFACTURING CO.

Established 1850 Jefferson Texas

Torrans Manufacturing Company

Yesterday and Today

Torrans Manufacturing Company was established well over 150 years ago in the East Texas town of Jefferson. Jefferson has the unique gift of being located beside Big Cypress Bayou. This natural waterway allowed access to the Red and Mississippi Rivers, making commerce with the Port of New Orleans possible. With access to New Orleans, Jefferson had entrée to the world. Today, the town is better known for its many antique stores, B & B's along with a plethora of wonderfully restored Ante Bellum, Victorian and Craftsman style homes, many of which are on State and National Registers.

In the early years, Torrans Manufacturing Company produced many things. Among these were cypress shingles, lumber, saddlery, harness, wagons and cultivation equipment. Shelves within the main store displayed everything from the finest imported china and crystal to paint and mouse traps. A vast warehouse system housed such things as dynamite, ready made doors and windows in addition to metal roofing and tin ceiling tiles.

Today, our company is owned and operated by Louis and Kathy Torrans and still doing business in Jefferson. However, the products we manufacture now are less involved than those of yesteryears. Shingles and crystal ware are long gone from the company catalog. In fact, we make just one kind of item, classic and traditional metal outdoor furniture of the type we all grew up with. These timeless designs are again available in a large array of colors and styles.

Most of our chairs and gliders were designed by Ed Warmack of Fort Smith, Arkansas in the mid 1940's. Ed is credited with having designed the first practical three piece lawn chair frame. Until then, they were mostly made from one single, long piece of tubing. Warmack and Company produced chairs for nearly all the large wholesale distributors along with chairs and gliders exclusively designed for Sears Roebuck & Company. Ed's normal production rate was 500 chairs per hour!

Ed sold his plant to two cousins, the Williams brothers in 1955. The factory continued producing steel lawn furniture and other items until it again sold in 1970 to Don Flanders. Flanders Industries later became what is known today as Lloyd Flanders and maintained production until stopping in 1996. Five years latter in 2001, Torrans Manufacturing Company, LLC reintroduced this same line and today owns the molds and tooling to produce five different styles of Metal Lawn Chairs and four Gliders. Only minor modifications have been used to improve these classic and time tested designs. In fact, chairs from Torrans are heavier, handle more weight and will last longer than even those of Mr. Warmack or Flanders!

Just like Mom'n them had, only better!

- * Heavy Gauge Steel Seats, Backs, and Frames!*
- * UV Resistant Powder Coat Finishes!*
- * Stainless Steel Hardware!*

*Retro is like
Déjà Vu all over again!*

Thank you for your interest in Torrans Manufacturing Company, LLC and our enchanting line of Classic Outdoor Metal Lawn Furniture. Today, we manufacture a quality product that's in every way as Good or Better than those made by Post War manufacturers.

In 2001 Torrans Manufacturing Co, LLC began making its line of traditional lawn furniture to the same specifications used by previous manufacturers. We didn't set out to just create some sort of reproduction vintage stuff but instead to continue these wonderful time tested designs with our own value adding improvements.

Bellaire

Originally designed about 1946 by the late Ed Warmack of Fort Smith, Arkansas. These Art Deco inspired stamped steel chairs were purchased by the tens of thousands during the booming years of the Post-War Atomic Era. Ed's colorful steel lawn furniture could be found on porches, in backyards, fronts of motels and around pools all across America. Their popularity extends today!

Ed sold his company in 1955. Production continued until 1970 when again the factory was traded. New owners, Flanders Industries which later became Lloyd Flanders maintained prolific production until 1996.

In 2001, Torrains Manufacturing Co., LLC began making its line of this traditional lawn furniture to the same specifications used by previous manufacturers. Heavy duty frames, stainless steel fasteners and high gloss UV resistant powder coat all add up to traditional value your grandparents would be proud of!

Available Colors

Parklane

This is the chair design that created the term “Shell Back” due to its distinctive clam shell shape. Most likely designed by John Gordon Rideout around 1937, it is definitely one of the first traditional stamped steel lawn chairs with a shaped tube frame. The chair enjoyed much success well into the 1950s being sold and distributed all across America.

Today Torrains Manufacturing Co., LLC calls the design Parklane and is a continuation of the original with just a couple of our own improvements. We moved the attachment points of the frame to the shell back for increased roominess. Then we gave it an individual color pallet with matching side table and double glider! A wonderful classic styled chair from way back in the “Good Old Days.”

**Parklane
Metal Chair**

MSRP: \$112.99

Side Table**

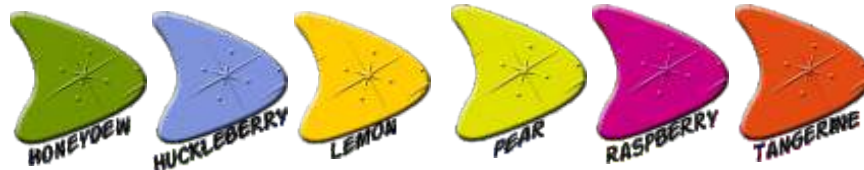

MSRP: \$79.99

**Parklane Double
Glider**

MSRP: \$256.99

Available Colors

Thunderbird

Sold exclusively through Sears, Roebuck and Company about 1955. Designed by the late Ed Warmack of Fort Smith, Arkansas this is one of only a very few designs that were private labeled and marketed exclusively through only one company. Not the most recognized of vintage metal lawn chairs it is surely one of the more original. The design of the back is complex but so very comfortable with a curved back forming shape which also includes lumbar support. Torrains Manufacturing Co. LLC proudly reintroduces this Atomic Era classic which has not been seen for over 55 years! Made to the same heavy duty specifications as the original but now with stainless steel fasteners and modern day UV resistant high gloss powder coat! Matching double glider available.

**Thunderbird
Metal Chair**
MSRP: \$112.99

**Thunderbird Heavy
Duty Chair
also available**

**Thunderbird
Double Glider**

MSRP: \$256.99

Picnic Cooler

Originally designed in the 1940s and made by both Temprite and Action. This highly popular summer classic is in the style known as "Junior" and is sized for a single six pack but is capable of handling more! Made to the same specifications as those from 60 years ago. Picnic Cooler from Torrans Mfg. Co., uses modern day insulation to keep your food and beverages cold all day. Snap tight lid insures secure travel against accidental spills! In 2013 Torrans added embossed design.

Plain-Metal Liner

MSRP: \$116.99

Available in 3 Colors:
Green, Red, Turquoise

Embossed-Plastic Liner

MSRP: \$116.99

Available Colors

Tall Boy Cooler

Embossed Tall Boy Cooler

MSRP: \$139.99

You'll be the hit of the party whether it's at the beach, in the backyard or just tailgating with our new bright and colorful and oh so functional Tall Boy beverage cooler! Same basic size as our highly popular Picnic Cooler but stretched to a full 17" tall. Now you can chill common size 750 ml glass wine bottles as well as 2 liter plastic soft drinks and still enjoy that great atomic era look and feel! Made just like the original Temprite and Action coolers from the 1940's-1950's now sporting our exclusive retro embossing.

Available Colors

Metal Tables

Bar Table

MSRP: \$229.99

When past manufactures added items and accessories to their lawn furniture lines, none of them gave consideration to creating bar height pieces. However, nearly every modern day outdoor furniture manufacture now offers bar sets. They are very popular and do service both inside as well as out. Torrains Manufacturing Company, LLC quickly recognized the need for bar height chairs and tables, adding them to its own line of vintage lawn furniture. These pieces are styled after period metal lawn chairs and gliders just as if they themselves were products available from "back in the day!" The table is popularly sized at 40" in diameter and 36" tall. A full perimeter foot rest makes for comfortable sitting. The chairs are sized to match sporting era correct styling with their own foot rest. Each piece is made from heavy duty materials suitable for extended service out of doors. The table accepts conventional sized umbrellas.

36" High

26" High

Patio Table

MSRP: \$206.99

Nicely sized at 40" diameter and 26" to top edge. Made with heavy duty steel legs and top for years of use. Powder coat finish is high gloss and UV resistant. Convenient umbrella center hole accepts all standard sized poles. Works perfectly with vintage styled metal lawn chairs!

Side Table

MSRP: \$79.99

Perfect addition to any outdoor seating area! Full 20" diameter top at 20" tall. Super stable four leg design resists tip over! Classic retro styling compliments vintage as well as modern furniture styles.

20" High

Side Table also available in Parklane Colors.

Square Metal Tables

Square Bar Table

MSRP: \$249.99

38x38x36" High

Square Patio Table

MSRP: \$224.99

38x38x27" High

24x24x19" High

Square Side Table

MSRP: \$96.99

Square side table comes with color top and white legs

Available Colors

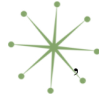

Shipping

Everyone knows shipping costs are a large part of today's business expense. We make every effort to provide you with the best freight rates available to us. Before we ship your order, quotes are compared from our list of freight providers so that your landed price is as low as possible.

Our products are not freight classified as "Furniture". The rate class is 70 and defined as "All Metal Furniture, Knocked Down and Flat Packed". Delivery costs are determined by your physical shipping address and total weight of the order but not calculated from a net percentage of the invoice. To assure your order arrives without delay, avoids delivery issues or incurs added charges, please note the following:

-  Orders of about 200 lbs. and greater are placed on standard 40" x 48" wooden shipping pallets. Pallet loads are shipped on large trucks, aka. "18-wheelers."
-  Your physical shipping address must be able to accept routine large truck deliveries. If you are unable to receive 18 wheelers to your location we can still ship to you via UPS Ground service. UPS charges typically run more than freight delivery.
-  Check with your municipality's zoning department and confirm your physical shipping address is NOT defined as residential. We have learned some businesses are actually designated to be located in a residential zone. Residential delivery incurs added costs.
-  When receiving truck delivered freight and your location does not have forklift or dock access, you may require lift gate services. Please be sure to let us know your truck off loading process. Lift gate services carry extra charges. Contact us for further details.
-  Almost all of our products are packaged and approved for UPS and FedEx ground delivery. We ship all non freight orders via UPS ground.
-  Please inform us of your receiving hours. Freight companies typically deliver Monday through Friday, 8 AM to 5 PM. If this schedule differs from your own, a special delivery appointment might be required and extra fees may apply.
-  Small freight orders of less than about 300 lbs. account for the majority of your landed costs. Normally, you can increase your order by several hundred pounds with minimal added freight increase, thus effectively lowering net landed costs to the products.
-  We encourage you to contact us with any shipping question prior to placing your order.

Frequently Asked Questions

Is there a minimum we have to buy?

The minimum first order is \$350.00 not including freight charges. There is no minimum for reorders you only have to buy as much as you need.

Where are your Chairs made?

China. We own the molds and tooling used to make our line of classic outdoor furniture. Everything we sell is made to our own specifications.

What is your warranty?

Torrans Manufacturing Company, LLC warrants to the original purchaser, for the period of one full year, its Chairs and Gliders to be free of manufacture or material defect. No other manufacturer, past or present, produces a better made, heavier built, or stronger Chair or Glider in similar styles than we do.

If I buy from you, how do I know I won't find this same chair at Wal-Mart?

We don't court any of the mega merchandisers or what some folks call "Box" stores.

What is the weight limit of the Chairs and Gliders?

Our Chair and Glider frames are genuine "Heavy Duty" rated by laboratory tests. Chairs rated at 275 lbs. and Gliders at 500 lbs. Heavy Duty Frame Chair is rated to 325 lbs.

I buy all my furniture with 12% shipping. Sometimes even less. Why is your shipping higher?

Our freight class is 70. Within this class we get a substantial discount from our freight company. We routinely compare freight costs with several carriers to insure you're getting the best rates possible. Common freight carriers or trucking companies maintain minimum shipping weights generally starting at about 300 lbs.

Can you ship your furniture by UPS or FedEx?

Yes, with the exception of the Patio Table, Bar Table and Drink Cooler. However, small orders do carry the highest landed price per piece. We always explore which method is most cost effective for you.

Can you drop ship to our customers?

Yes, we can. Although, if you are not carrying inventory in your store for re-sell, there will be an additional charge for drop shipping. We ship via UPS from area code 75657.

Why does it appear that there is rust on the frames from time to time?

This is just a discoloration caused by condensation. The inside tubing has not been powder coated. This and many other scuff marks can be easily removed with chrome polish and a soft cloth.

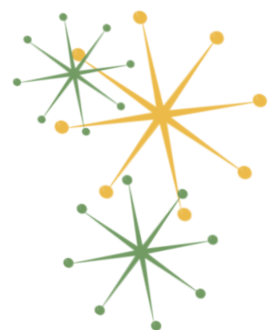

Care and Maintenance

Occasionally, when opening your metal lawn furniture, you may encounter some slight discoloration in spots. Also, from time to time you may see the same discoloration after prolonged use. The discoloration is only a stain, and along with any scuff marks, can be easily removed with chrome polish and a soft cloth. To prevent future stains, we recommend a light application of auto wax. We have found a small application of liquid auto wax lessens efforts required to remove repeated stains like bird droppings and tree sap. Plus, wax increases the gloss of the powder coat and extends the life of the powder coat.

The finish of our furniture is exterior grade, ultra violet resistant powder coat. It will keep its gloss and smooth appearance for many years and is resistant to most household cleaners. Generally a good bath with a soapy sponge removes all common yard stains. However, powder coat is not scratch proof. It does compare in hardness to the finish of modern automotive paints.

A drop or two of lubricate from time to time will remove squeaks in the nylon bushings of the glider swing arms.

Assembly

All assembly instructions are located on our website at:
www.torransmfgco.com – under Assembly Instructions.

Key Points

- ✦ High Gloss exterior grade powder coat UV protected for years of enjoyment!
- ✦ Stainless Steel hardware. Never rusts or needs replacing.
- ✦ Rolled inside edges on seats and backs for extra strength!
- ✦ Matching size, heights and dimensions as same styled vintage models!
- ✦ Strong 20 gauge all steel seats and backs!
- ✦ Solid 15 gauge high quality frame material!
- ✦ Weight rated to 275 lbs. for chairs & 500 lbs. for gliders.
- ✦ Exceeds specifications of ALL similar styles produced since 1939!
- ✦ Traditional styling with traditional value!
- ✦ Backed by our one year warranty!

TMC
Setting the standard!

Selling our furniture at point of contact

The process of motivating a potential customer with Torrains Manufacturing Company's furniture is easy. The timeless style and bright colors attract immediate attention. Our catch phrase, "Just Like Mom'n Them Had!" comes from countless folks remarking to us about having enjoyed these Chairs and Gliders from days gone by. You'll hear this often!

Our Chairs and Gliders are continuations of a line created in the mid 1940s. Today, Torrains Manufacturing Company produces furniture that compares to or exceeds specifications of all Post War Metal Lawn Chairs and Gliders. Most customers will perceive this after their first demonstration.

Emphasize some of the following points to improve sales, educate the customer and draw interest to your store.

- 1) Our Chairs weigh 20 lbs assembled. A similar chair in 1947 was 19 lbs.
- 2) The paint finish is a powder coat which has been baked on. It is UV resistant so fading, chipping and peeling will not be a problem for many years.
- 3) All fasteners are stainless steel. The nuts are locking type and will not loosen.
- 4) Chairs have been live load tested in excess of 300 lbs. and Double Gliders to over 500 lbs. with out failure.
- 5) Our Double Glider was first designed in 1947. It is an exact match but has been improved to accommodate more weight. And, we are only the third manufacture to produce them.
- 6) Torrains Manufacturing Company owns the tooling used to make its Chairs and Gliders. They are made in China but we are the exclusive manufacture and each item we make is to our own high standards.
- 7) Our name is the guarantee! Look for the Torrains Manufacturing Company label on the back of every Chair and Glider. It's your assurance the Chairs and Gliders are original TMC products and we will repair or replace defective parts for the first year.
- 8) Market the furniture in groups of three to sell more furniture faster. For example, 1 Glider and 2 Chairs or 2 Chairs and 1 Side Table. Many retailers discount the MSRP combined cost to motivate shoppers with a reduced price for three piece sets. Normally, a 10% discount from MSRP will still yield one full landed margin.
- 9) Let our furniture sell other products for you. Display Chairs and Gliders in a conspicuous manner to draw customers into the store. Often times, buyers will discover other items of interest while having only stopped in to inquire about your "Cool Lawn Furniture"!
- 10) Promote your service. Let the buyer know how purchasing from you benefits her.
- 11) Include a set of Chairs and Gliders in your ad along with your "Special" price.
- 12) Our packaging allows for vertical warehousing. If you need advise, please ask.

Choose zone by the zip code we will be shipping to. On the price sheet, under the zone number, you can estimate what UPS shipping to a residential address will be for each product. Commercial location is less. Keep in mind these are ESTIMATES only! For a more accurate quote contact us when you have your order complete. If you have enough weight for a pallet then your cost per unit will usually be less. We can give estimates once we know what you are ordering.

Pallet orders - minimum 200-300 lbs for your best rate.

Explanation of the pricing columns on the Price Sheet

"Wholesale" = Retail store stocking and selling our furniture

"Drop Ship" = Store only showing our furniture and taking orders, catalog or on-line stores.

"B-T-B" = Interior Designers, restaurants and stores wanting furniture for business purposes only.

"MAP" = Minimum Advertised Price for our furniture advertised and sold in a retail store.

"MSRP" = Manufactures Suggested Retail Price.
